

TKI publication points, August 2010

Admission as research fellow to the Tjalling C. Koopmans Research Institute (TKI) for staff members of the Utrecht University School of Economics (USE) is based on quantitative criteria. This note summarizes the *main structure* of the rules (for details, special cases and earlier rules see ‘Afronding herziening RAAS systeem’).

Two criteria

There are two quantitative criteria, namely:

- *Journal score* = output score based on journal publications¹
- *Broad score* = output score based on a broader range of publications²

In both cases the score is based on publications in the most recent five year period.

Minimum requirements

Eligibility as TKI research fellow requires a minimum score for both criteria:

- Minimum journal score = 25 points until 2010; 30 points starting in 2011.
- Minimum broad score = 45 points.

Further strengthening of the minimum requirements in the future seems likely.

Journal score

Starting in 2009, the journal score is based on refereed article publications in SCI or SSCI journals only, independently of the number of co-authors and pages.

- An article published in an SCI or SSCI journal receives 10 points.³
- An article published in a selected list of top journals receives 10 extra points (thus a total score of 20 points; see [RAAS top 90](#) for the current list of 90 top journals).

Broad score

The transition to the new broad score started in 2009 and will eventually be constructed as follows⁴

- The journal score +
- 2.5 points for articles on the ‘[Complementary journal](#)’ list (not SCI or SSCI)
- 7.5 points for chapters in books on the ‘[General publisher](#)’ list +
- 2 points for chapters in books on the ‘[Complementary publisher](#)’ list +
- 7.5 points for editing a special issue of an SCI or SSCI journal or for editing a book on the ‘[General publisher](#)’ list⁵ +
- 2 points for editing a special issue of a journal on the ‘[Complementary journal](#)’ or for editing a book on the ‘[Complementary publisher](#)’ list⁶ +
- 15 points for authored books from publishers on the ‘[General publisher](#)’ list +
- 4 points for authored books from publishers on the ‘[Complementary publisher](#)’ list

Charles van Marrewijk
TKI Director

¹ In previous documents referred to as formula 2 score.

² In previous documents referred to as formula 1 score.

³ Scores in earlier years are not adjusted retro-actively after a journal is listed in SCI or SSCI starting in a particular year.

⁴ Complicated rules and exceptions hold in the period 2009-2011, see Afronding herziening RAAS.

⁵ The maximum score per issue or book as author and editor is 15 points.

⁶ The maximum score per issue or book as author and editor is 4 points.

RAAS TOP 90; USE – TKI top journals, 2009 – 2012
