

## Required knowledge and skills for Cultural Anthropology: Sustainable Citizenship

Please find below an overview of the knowledge and skills required to participate in this Master's programme. For every aspect is stated: the general criterion of what is expected from a prospective student, and the norm that is used in the assessment of a candidate's eligibility.

### How does the Admissions Committee check if you have a required knowledge/skill?

- 1) The Committee will check if the subject in question was taught in your previous education.
- 2) If the Committee is familiar with your curriculum, they will use your transcript. If the Committee is *not* familiar with your curriculum, the procedure below applies:
  - a. You list the course(s) in your curriculum in which the required knowledge/skill was taught on the Checklist Entry Requirements (you can find this checklist under Required Documents).
  - b. You hand in a syllabus for every course you list on this checklist (including information on course content, learning goals, weekly schedule, etc). This way, the Committee can verify whether the courses you listed sufficiently address the required topic.
- 3) The Committee decides if the knowledge/skill meets the required norm described below based on your transcript/syllabus. This is a yes/no decision for every norm.
- 4) For some no-decisions, you may be able to acquire the knowledge via a pre-Master's programme, summer school, online course, a self-study assignment, or you can compensate with other capabilities you have. This is for the Admissions Committee to decide.

*Please note that a pre-Master's Programme is only available to students with a Dutch educational background who do not need housing and who do not have or require a residence permit for study purposes.*

1. Key issues in anthropology	
Criterion	<i>You are able to interpret, analyze and solve key (social) issues in anthropology, more specifically, you have knowledge of theoretical concepts and approaches concerning cultural diversity, citizenship, sustainability and globalization.</i>
Norm	Academic courses worth at least 15 EC, covering (one or more) of the following subjects: cultural pluralism or diversity, globalization, citizenship and sustainability.
2. Qualitative research methods	
Criterion	<i>You are able to design, perform, analyze and report on scientific research in social sciences, with a focus on qualitative research.</i>
Norm	Academic course(s) totaling 7.5 EC, covering qualitative (ethnographic) research methods.
