

Evaporation types

<https://www.youtube.com/user/MartinRHendriks/videos>

- Interception evaporation
- Soil evaporation
- Transpiration

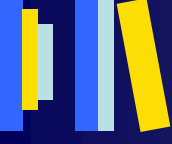

Global evaporation:

57% of precipitation on land

112% (!) of precipitation on oceans

Warm, dry climate evaporation:

up to 96% of yearly precipitation

Evaporation types

<https://www.youtube.com/user/MartinRHendriks/videos>

- Interception evaporation
- Soil evaporation
- Transpiration

- Potential evaporation
- Actual evaporation

- Reference crop evaporation

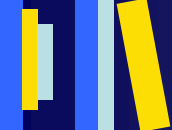

- Pan evaporation
- Open-water evaporation

Evaporation types

From higher to lower values (generally):

1. Pan evaporation
2. Open-water evaporation
3. Reference crop evaporation
4. Potential evaporation
5. Actual evaporation

All values are in mm day^{-1} !

Textbook

Paperback | 351 pages | Follow the book's didactic concept!
