

6. C.W. Opzoomer Room (C.W. Opzoomerkamer)

History

Cornelis W. Opzoomer (1821–1892) was professor of Philosophy in Utrecht from 1846 to 1889. In addition, he was an influential lawyer and translator. Opzoomer was one of the first in the Netherlands to advocate revealing scientific truth through an empirical, positivist approach. While he devoted himself emphatically to the core issues of science, he also translated various literary works into Dutch. He was the first professor to break with the ancient tradition of holding his inaugural speech in Latin, presenting it in Dutch instead.

Hall/room capacity

Square table (standard) 20 persons

No other configurations are possible in this room.
