Legend:

- This organization chart is intended to show who you should approach for what. It is a simplified representation of reality. It is also 'work in progress': changes can occur over time.
- For the sake of readability, only the first surname is used for all the aforementioned.
- The names of the Departments are in English, also when used in Dutch context. The names of the sections have Dutch translations which can be found in the Dutch version of this organisation chart.
- Board of Studies: The BoS consists of the Vice-dean Education, each department's Teaching Manager, the three Heads of Education and the Head of Students & Education. Research Council: The RC consists of the Vice-dean Research, each department's Research Manager, the Theme Leaders of the three research themes, and the Head of the Research Support Office.
