

Project proposition template

Name:

Title idea:

1. Give a short description of your idea/design (max 300 words).

2. Where in Utrecht Science Park can we implement your idea/design? Cross on map.

3. Explain your idea/design. Use photography or sketches to clarify if necessary.

4. Why and how does this idea/design contribute to local biodiversity? And how does it generate energy (max 300 words)?

5. Would you like to add anything? Write below.

Send your submission to duurzaamheid@uu.nl with your (team) name. You will receive a confirmation of your participation and will be contacted when the winner has been chosen.

Note: Project proposals will solely be shared with judges and will not be openly published by the university. The winning proposal however, will be communicated about and will therefore be published. We need the candidates' approval for this. In case the *Corporate Real Estate & Campus* department wishes to execute another idea or design, besides that of the winner, the candidate in question will receive word and approval shall be sought.

My proposal can be publicly shared if I am the winner of this competition and can be implemented by Utrecht University, department *Corporate Real Estate & Campus*.
