

Template for program page

In this template you may fill in the different parts of the program page, while getting an idea of what the actual page will look like. It may also help to check out an [example](#) of a program page.

Multimodular course

Are you offering a course that comprises multiple modules? In that case, use this template for a general description of the course. It will become an overview page with links to separate module pages.

Questions?

If you have any questions, feel free to contact *Onderwijs voor Professionals* via ovp.vet@uu.nl or 06 34 14 67 37.

Schedule

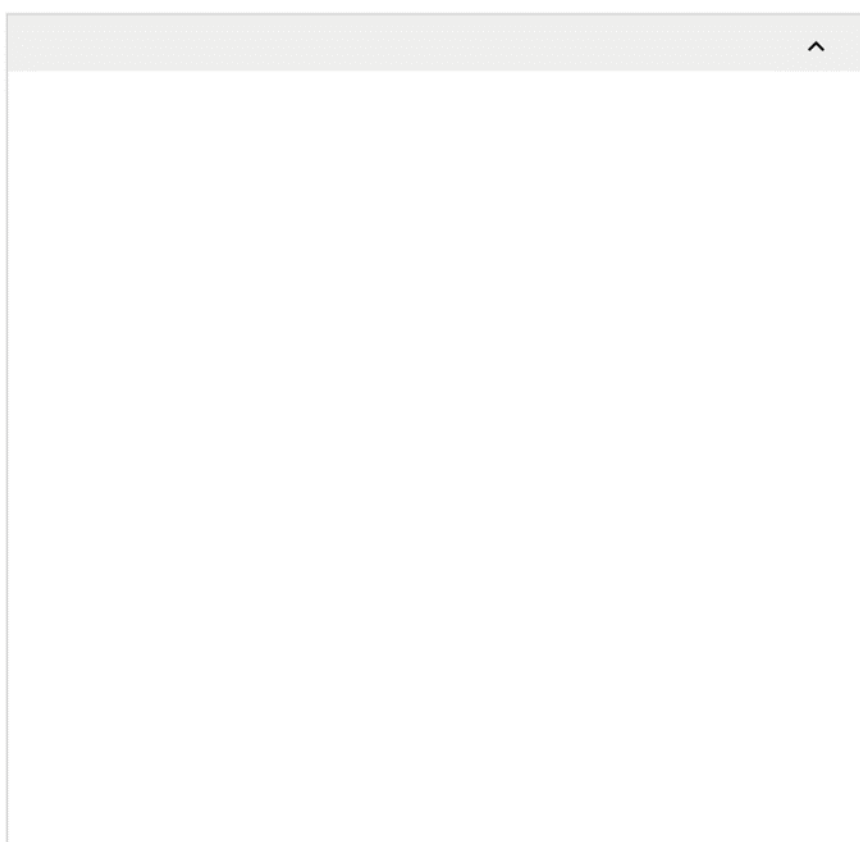

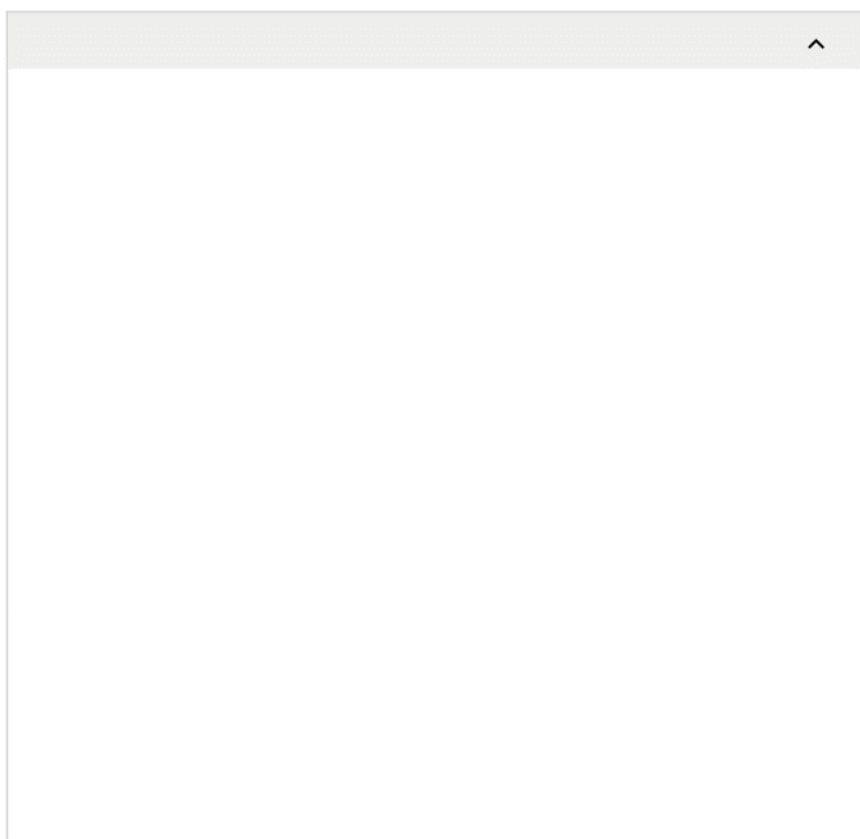

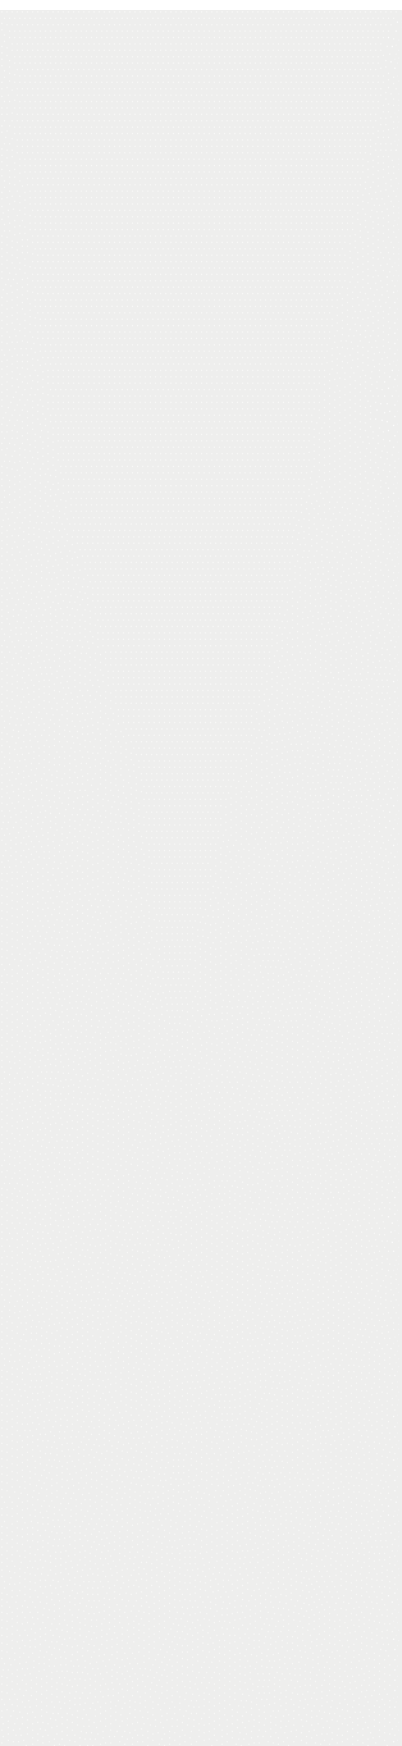

Guide:

In the empty box on the right and the two empty boxes on the next page, you may put other information that doesn't fit in any of the previous boxes. For example, info about the relevance of the course, course design, accreditation, etc.

Enter a fitting title in the grey area and the content in the white box. This text will appear as fold out text on the program page.

Filters

Now that the course page has been filled, it is important to add some filters to the course. This makes it easier for people to find your course on the website of *Onderwijs voor Professionals*. The filters are not visible on the course page, but are used for the filter function on the website.

Select all filters that apply to your course.
