

# Checklist Entry Requirements

## Youth Development and Social Change

**This form is NOT required for students with a Bachelor:**

- Interdisciplinary Social Sciences or Psychology at a Dutch research university.
- Pedagogical Sciences or Educational Sciences at Utrecht University.

**For all other students, this form is mandatory.**

In the scheme below you have to show the Admissions Committee how you have acquired each competency by listing all relevant academic courses.

For everything you list, you need to submit official course syllabi (including information on course content, learning goals, weekly schedule, etc.) that prove that the course content is indeed relevant.

You can upload this form and the supporting documents via the application process in Osiris Online Application.

Please note:

- The courses need to be listed on your transcript or on the overview of courses yet to be completed.
- You need to upload official course syllabi or weblinks in English or Dutch. Realise that the Admissions Committee is unfamiliar with your specific curriculum. Via course syllabi the content of a course can be verified.
- In case the Admissions Committee is unable to verify the course content, it will not be taken into account in the assessment of your application file.

### 1. Scientific theories on youth

You meet this requirement when you have completed at least 10 EC in Bachelor courses on the broad topic of youth.

*I meet this requirement via the following academic course(s):*
