

Future Food Utrecht Hub

Call Education Projects 2018

Deadline: 1 November 2018, 24:00 hrs.

Future Food Utrecht Hub

Future Food Utrecht offers a platform for scientists and external stakeholders on which they contribute to the transition of the food chain for a sustainable world, by means of integrating unique inter and transdisciplinary research and education.

FFU aspires to contribute to transdisciplinary food-related education with the aim of educating the new generations of academics and professionals to equip them with the skills needed to carry out innovative research and to tackle complex social issues related to food challenges. Education is strongly linked to the research across the full range of disciplines (faculties / schools within the UU and the UMCU). In the coming years FFU wants to further stimulate and facilitate the development of inter and transdisciplinary education with and for stakeholders within and outside the academy.

For whom

For Utrecht University and UMC Utrecht researchers/lecturers interested in starting new food related inter- or transdisciplinary education.

Aim call

- To strengthen the inter and transdisciplinary food related education at Utrecht University.
- To enlarge opportunities for educational interactions within UU, between academia, government, civil society and/or the private sector.
- To increase the visibility of Future Food Utrecht nationally and internationally.

Conditions

- The project should focus on food related education from an inter-or transdisciplinary perspective.
- The educational component is at a BSc, MSc or PhD level or part of the UU Life Long Learning program.
- A clear description is provided on how the educational component will be embedded structurally, including a brief description of the ownership (responsible faculty/department and director of education) and a budget.
- The proposal gives a brief impression of the overall goal of the project, the food topic, the added value to the Future Food education goals, the involved disciplines and teachers/experts (academia/partners) and opportunities for new collaboration.
- All academic staff (holding a BKO) within the Future Food community of Utrecht University and UMC Utrecht can submit a proposal.
- Each applicant can submit only one proposal.
- The project must take place in the period March 2019- July 2020.
- The maximum amount of funds to be applied for is €10,000
- The proposal must be submitted in the enclosed format.

Assessment criteria

- Added value to the [Future Food ambitions](#) at Utrecht University
- Opportunities for inter-or transdisciplinary education at Utrecht University
- Opportunities for new collaborations within UU, with government, civil society and/or the private sector.

Procedure and timeline

- Submit by email to Future Food Operations Manager Maria Jose Rojo Martinez (M.J.RojoMartinez@uu.nl).
- Deadline is 1 November 2018, 24:00 hrs.
- The proposals will be checked on eligibility. Researchers/teachers of non-eligible proposals will be informed.
- The jury will discuss all eligible proposals. Members of the jury will not contribute to the decision process on proposals of their own group.
- The jury will advise the Future Food Board about the proposals. In case there are more projects than budget available, the jury will advise the board about a priority.
- All applicants will be notified by December 2019.

Justification and Report after the grant

- The applicant(s) will organize a meeting at the end of the project with the support of the Future Food Office to share the gained knowledge.

Questions

If you have questions about the call, please contact Maria-Jose Rojo Martinez (M.J.RojoMartinez@uu.nl /030 – 2534645).
