

What financial support is available?

Diversity networks can apply for funding with the EDI Office every year. For every network, no more than € 4,000 is available. You have to present an annual budget to [the Diversity Network Coordinator](#) for this purpose. At the end of the calendar year, the network shares an overview of the expenses that were made.

The financial support can be used for the organising of activities, but also as a form of compensation for the time and energy students and staff members put into the network. Some examples are:

- actions taken by interns , student assistants or participation-staff members;
- volunteers' fees
- compensation within a current position (2h/w).

Activities during Diversity Month

Are you organising an activity together with the EDI Office during a diversity month? If you do, more budget is available for this purpose. More information can be read [here](#).

More information

Do you have any questions about funding or claiming expenses? If you do, please contact the Diversity Network Coordinator.
