

Proof of Anticipated Degree

Note: We do not need this form if you study at Utrecht University or if you have graduated less than 5 years ago at Utrecht University.

Even if you did not obtain your diploma yet, you can still already submit your application. However, in that case we will need written proof that you are indeed in the final stages of your programme and that it is likely that you will graduate soon. For this, you can ask your current University/Institution to write a statement.

This statement must contain the following information:

- Your name
- Your date of birth
- The official and full name of the degree you will be obtaining
- The official duration of the study programme
- If applicable: the remaining courses (name course and if possible amount ECTS)
- The name and position of the person signing the statement
- Expected graduation date

The statement must be signed and stamped by an official at your university.

You can also make use of the standard form on the next page:

Proof of Anticipated Degree

Part 1 (to be completed by the student):

Student number from Utrecht University:	
Names as registered in your passport:	
<i>If applicable:</i> also your maiden name.
