

Writing Sample Master Application

Please provide an example of one of your written works. We prefer it to be:

- an academic paper or essay that you wrote for your current or previous education,
- graded if possible,
- written in the language of the Master that you're applying for,
- related to the field of study of the Master that you're applying for, and it should show good understanding of theoretical work or discussions in your field of study,
- the number of words is not prescribed, if you need a guideline: between 1000-3000 words,
- it may be written for this application especially, but that is not our preference.
